Notification of End of Life (EOL) for CMR200T

Thank you very much for your continual support for our crystal devices.

We regret to inform you that the product listed below will be discontinued from both manufacturing and sales due to aging production equipment, which makes it difficult to maintain stable and continuous production.

Details regarding the schedule and important notes are provided below.

We kindly ask for your understanding and cooperation.

Sincerely,

【Affected Product】

- CMR200T

【Reason for Discontinuation】

- Due to aging production equipment, it has become difficult to ensure stable and continuous manufacturing.

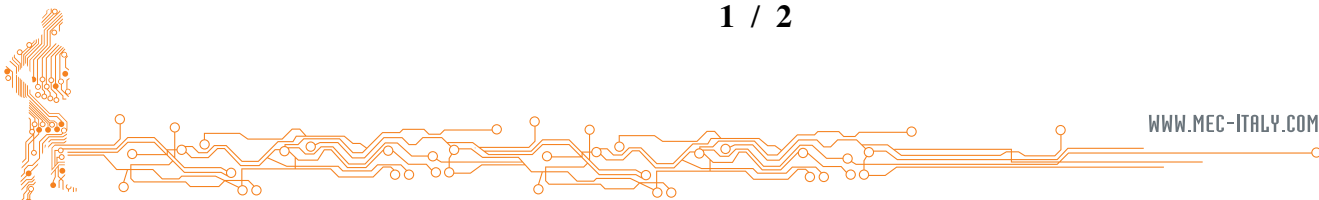

【Schedule】

- **Final Order Acceptance Date:** September 30, 2026
- **Final Shipment Date:** March 31, 2027
- ※ Please note that even orders received by the final order acceptance date **are not guaranteed to be shipped by the final shipment date**, depending on production conditions.

【Important Notes Regarding Orders】

Currently, demand for this product continues to exceed our original expectations, and **our production capacity is already under significant strain**.

In particular, **production capacity through approximately September 2026 has already been fully allocated**, and therefore, even if orders are submitted before the final order acceptance date, it may not be possible to secure additional production slots depending on order quantity and specifications.

Please note that **this notice does not guarantee acceptance or production on a first-come, first-served basis.**

All orders will be reviewed individually, and decisions regarding production feasibility and delivery schedules will be made after coordination.

Once order details have been consolidated, **our sales representative will contact you directly** to inform you of delivery feasibility and schedule.

We appreciate your understanding in advance.

[Alternative Product Information]

There is **no direct replacement product** for the CMR200T; however, as an alternative based on application and specifications, we **recommend transitioning to the CM315DL.**

The applicability and detailed specifications of the CM315DL will be proposed based on the end customer's usage conditions, in coordination with our sales team.

If you require **samples of the CM315DL**, please contact your assigned sales representative.

We sincerely apologize for any inconvenience this discontinuation may cause to you and your customers, and we greatly appreciate your understanding.

Yours faithfully,
