Parts Change Notice

Thank you very much for your continued support and we wish you all the best in your company's continued success.

We would like to inform you that the cost of the metal film used for frequency tuning in our crystal units has recently risen significantly.

In order to maintain the current prices and ensure a stable supply, we would like to request your approval to change the material of this metal film as described below.

Please note that this change will have no impact on the product quality and Electrical characteristics. We kindly ask for your understanding and approval of this material change.

— Note —

1) Applicable Products

Model : [CM1610H、CM2012H]

2) Changed Part and Content

Changed Part : Metal film used for frequency tuning (Refer to the Pic.1)
Content : (Before) GOLD (Au)
(After) SILVER (Ag)

Pic.1 Metal film

3) Product Quality and Characteristics of Before and After changing

No impact on the product quality and Electrical characteristics.

4) Schedule

Model	Planned Timing for the Full Transition	Estimated Sample Availability Date
CM2012H	Sep 2026	Apr 2026
CM1610H	Dec 2026	

We will provide evaluation samples and technical data related to this material change. If you need samples and data, please feel free to contact your sales representative. Please note that the planned timing for the full transition may vary depending on our inventory status.

5) Contact

If you have any questions, please contact your sales representative or submit an inquiry through the website below.
