

## **EOL of MP SERIES**

Thanks for your long-term cooperation! To keep the latest technological and optimize product, we concentrate resources on the research and development, upgrading, and service iteration of the new generation of products, providing higher quality, more stable, and more in line with market demand products and solutions. After evaluation, we hereby officially announce the termination of the product lifecycle notice. The specific matters are as follows:

### **1、 Involving product information**

1. Product type: Snap-in
2. Product model: MP series

### **2、 Shutdown instructions**

The EOL of MP series mainly due to outdated technology, material discontinuation, and inability to meet current industry standards and customer business upgrade needs in terms of performance and functionality. We HWE has decided to terminate the production and operation services of this product based on our product iteration upgrade strategy, which is not the quality issue.

### **3、 Alternative product solutions**

1. Alternative product type: Snap in
2. Alternative product model: CP series

Thank you again for your understanding and support! HWE will continue to deepen product innovation and service optimization, provide better products and solutions.

**Best regards!**
